TIER OVERVIEW

We currently have three tiers of affiliation & partnership.

The first tier is open to everyone who has an account with us and allows you to benefit from a **5% referral commission** on all products and include recurring revenue **for the life of the product or service**.

We offer products at a competitive price and therefore can go above and beyond the **5% initial referral bonus**.

You can share a link with your id to a potential client, and if they complete a purchase, you will automatically receive a commission from that order.

Payouts are on hold for 180 days, this seems long but is transparent and is a fraud protection system that allows for chargebacks or cancellations.

Payout holds are automatic, and you will receive notification when released.

We currently have a **100.00\$ minimum cashout**; we offer electronic fund transfer (EFT) to your bank when you submit a request. Payouts usually take 2-3 business days for us to process and do not including the time the bank chooses to process the request.

TIER STRUCTURE

TIER ONE

Affiliates who send us clients directly and do not manage their client projects are ideal for this tier.

Great for sales representatives or small agencies who want to gain a boost in passive income.

This tier also used for influencers and bloggers who want to increase their revenue potential every month while gaining legitimacy amongst their followers and readers.

Tier one support is by our ticketing/request system.

TIER TWO

Is geared towards **full-service agencies** that have the staff and resources to manage their clients but don't have a technical branch in house.

Tier two benefit from a **10% reduction in purchases** on their account.

Every order receives a 10% discount automatically and does not require any manual approval on the system.

You also benefit from Tier one advantages if you decide to refer a client directly to us, please remember to have them register via the links provided in this document.

Tier two members have to apply for membership into the tier and require a **minimum of 10 products in their account**. There can be exceptions based on the discretion of senior management.

We manually approve all accounts in this tier. If you meet the requirements and want to move from Tier one to two, please open a request so we can manually review your account.

TIER THREE

Tier three benefit from a **20% deduction** on purchases on their account.

Tier three also benefit from **priority support via telephone** and our ticketing request system.

In this tier, the partner benefits from an **account manager** and direct support from senior management.

Tier three also benefit from a **reduction in price on domain names.***

When in tier three you will be able to automatically view new pricing on domains in the system without intervention.

We also **separate invoices per product and services** to make it easier for you to bill your clients.

Tier two/three to be **exempt from automatic system suspensions or terminations.**
